REASONS FOR ALLOWANCE

1. Claims 1-14 are allowed.

The following is the Examiner's statement of reasons for allowance.

The prior art of record specifically Ryan et al (Pub. US 20050060650) fails to suggest or disclose the collective features of the invention such as: "a providing step of providing the print data to the printer, wherein said generating step generates a non-billing command upon receiving the print setting structure via the rendering unit and wherein said providing step provides the non-billing command to the printer before the printer prints the page of the document, so that the printer does not perform a process relating to billing for the page during printing of the document based on the print data" these features along with the rest of the claims limitations render the claims allowable.
